EDUCATION

Indian Institute of Technology, Bombay | Aug 2022 – May 2026 | GPA: 8.38/10
Major in Chemical Engineering, Minor in Management

PRODUCT & AI EXPERIENCE

Founder – MagiLabs (Applied AI Studio) | Aug 2025 – Apr 2026

- Led 3+ AI systems from discovery to launch for 2 paying customers (schools, startups) on a team of 2; ₹4L+ revenue
- Turned classroom CCTV into teacher engagement scores with a CV model ($r > 0.75$ vs. human raters), piloted in 2 schools
- Shipped a text-to-video agent whose LLM-as-a-judge loop raised human approval 65%→92%; render time cut 40→18 min
- Built Modul, a smart-home hub with fall alerts; tested 4 pre-set hypotheses via 40 surveys and 50+ household interviews, then pivoted to professionals buying for parents and to selling via contractors, winning IDEAS mentorship

Product Management Intern – Remedo (Healthcare SaaS) | Aug 2025 – Oct 2025

- Prioritized dental chains (DSOs) over easier-to-win solo clinics after interviews across 30+ clinics and SQL data analysis showed 3x higher LTV but 40% lower adoption, trading longer sales cycles for higher-value accounts
- Redesigned the demo-to-trial nurture sequence, where 30% of clinics stalled within 48 hours of the demo; activation rose 20% vs. the prior 4-week cohort
- Shipped "AI Patient Recall", a patient retention feature, from PRD (15+ user stories) to launch, automating risk scoring, outreach and send-timing but keeping staff in the loop at booking; no-shows fell 20% after launch

OTHER EXPERIENCE

Technical Project Manager – P&G | May 2026 – Present

- Led 2 concurrent capital projects (₹3Cr+), an export product line and an anti-dandruff rollout, owning budget and timeline
- Won stage-gate funding approvals and aligned cross-functional engineering, operations and vendor teams to deliver on time

Product Supply Intern – P&G (Received PPO**)** | May 2025 – Jul 2025

- Spearheaded a machine learning tool (95% accuracy) that cut material waste to a record-low 0.4%, worth ₹60L+ a year
- Benchmarked 5+ global sites and partnered with engineering and data science to ship 3 new product features
- Validated it via 30+ A/B tests and live plant trials: 100% stability and a zero-incident rollout to 50+ operators

Startup Engagement & Partnerships Head – The Entrepreneurship Cell, IIT Bombay | Apr 2024 – Feb 2025

- Built a national startup program (99K+ students, 3K+ startups); raised ₹40L (+33% YoY) from CBSE, states and 25+ orgs
- Created "Seed Stars", a startup-investor matching program connecting 300+ startups with 20+ VCs; 5+ startups raised ₹20L+

KEY PROJECTS

Mumbai Flood Warning System | Climate Studies, IIT Bombay

- Launched a hyperlocal flood warning app (Web, iOS, Android) with MCGM, covering 100K+ Mumbai residents with street-level 3-hourly alerts to move cars, reroute commutes and evacuate early
- Led a 20+ member product-engineering team and aligned stakeholders MCGM (civic reach) and HDFC ERGO (insurance) behind one MVP that turns ML rainfall models into 3-hour and 3-day forecasts anyone can act on

Sahayak (Android Voice Agent for Elderly Parents)

- Built a multilingual voice agent that fixes seniors' phone problems from one spoken request: an LLM reads the screen via Android Accessibility and completes the task itself
- Achieved 100% on the task success metric across 50 real device tests at ~2 min per fix, with a spoken consent gate before any payment and a session summary sent to family

Curio (Knowledge Reels App)

- Launched a multilingual, AI-curated learning feed that mixes short videos with written reads from research and explainer sources, with no likes, follower counts or ads; 50+ daily active users
- Built a personalized feed users shape by picking topics and rating posts, plus in-app Thoughts to save takeaways by voice or text; AI vetting at scale passes only 1 in 3 creators

ACHIEVEMENTS & SKILLS

- Top 3 of 1,200+ teams, Antler Crackathon 2026: DynamicAdPlacement, AI that inserts brand placements into OTT video
- Qualified in the top 1% nationally for the Indian National Mathematics Olympiad (INMO) camp, organized by HBCSE
- **Skills:** Product strategy, roadmapping, user research, prioritization, A/B experimentation, data analysis, GTM, PRDs
- **Tools:** SQL, Python, TypeScript, Kotlin, FastAPI, LLM APIs & evals, computer vision, Git, Claude Code
